

Just B with Selma

With her third album "Just B with Selma", Selma is inviting you to her musical world.

Together with her faithful friend Selma Ćimić and a number of musicians, she is putting on a concert in Neimenster. Selma's new album, which is also imbued with colours, smells and sounds of her native country, and was accomplished under the skillful baton of Sergio Leite-Rodrigues, can be included in the category of "world music". Various musical genres are combined here, intertwined with rich, irregular Balkan rhythms typical of Selma's musical language.

On 13 June 2015 ten musicians are performing Selma's compositions in Neumenster (a cultural center in Grund – Luxembourg).

Passionately attached to her profession, Selma Hadrović Schauls is both a composer and an interpreter. Growing up with traditional Bosnian music, "sevdah", she released her first album "Sevdah de Lux..." together with Selma Ćimić in 2002. It was followed by her second album "Aidez-moi, j'ai un accent" in 2008, with the original compositions in several languages, including Luxemburgish. Running her own music school "Musikand" since 2002, she has also worked on various musical projects, always cultivating connections between her native country Bosnia and Herzegovina and Luxemburg, where she has been living for 29 years now.
